# Dedication

As the exploration of our universe expands, so will the benefits of all mankind. The people of earth are now entering a new era of peace and common understanding. What we attained when Neil Armstrong stepped down upon the moon was a completely new step in the evolution of man. For the first time, life left its planetary cradle, and the ultimate destiny of man is no longer confined to these familiar continents that we have known so long.

Thus, it is evident that our journey through Manor is on a parallel with the Apollo 11 mission. We both faced an unknown atmosphere of discovery and challenge. The lunar landing has been a success; and, it is to be hoped, we will meet with a similar fate.

PERPETUAL HELP HALL

ST. THOMAS MORE LIBRARY

ST. JOSAPHAT HALL

"How tall we are, how much we've learned . . ." Manor Junior College, founded in 1947, is located on beautiful and quiet acres in Fox Chase Manor. Because of its ideal location, between the city and suburbs, Manor has many advantages — both cultural and historical.

From Manor's small beginning, with Macrina Hall, she has grown to the present Perpetual Help Hall, consisting of well-equipped and roomy classrooms, a beautiful chapel, spacious and comfortable cafeteria and gymnasium.

Directly in back of the college are the much-used tennis courts and the stately St. Josaphat's Hall, which provides a homelike atmosphere for its residents who hail from all parts of the globe.

The latest addition to Manor, of which everyone is justly proud, is the magnificent new library, erected in 1969.

POPE PAUL VI

"Peace is not a state which can be acquired and made permanent. Peace must be built; it must be built up every day by works of peace. These works of peace are, first of all, social order; then, aid to the poor, who still make up an immense multitude of the world population, aid to the needy, the weak, the sick, and ignorant. Peace must be like a garden, in which public and private beneficence cultivates the choicest flowers of friendship, of solidarity, of charity, and of love."

— Pope Paul VI

REV. JOHN V. BARTOS

Two religion courses are offered each year at Manor. The COMPARATIVE RELIGION course is a study of doctrines, dogmas, and practices of the three major contemporary faiths in America. Catholicism is taught by Father Bartos, Judaism by Rabbi Fuchs, and Protestantism by Dr. John Neupher.

RABBI ALAN FUCHS

CHRISTIAN FAMILY LIFE concerns itself with everything from the choice of a marriage partner to the making of a home and child training. It also takes in the Catholic's responsibility to the social and professional spheres of his life.

REV. JAMES J. MULLIGAN

DR. JOHN D. NEUPHER, S.T.D.

MOTHER M. LAURENCE, OSBM  
English, World, and American  
Literature

Literature reflects the ideas and emotions of the human mind. Manor offers many courses which help students express ideas and thoughts. ENGLISH, WORLD, and AMERICAN LITERATURE are three courses which carry Manorettes from Roth to Racine. These are taught by Mother Laurence, OSBM.

ENGLISH COMPOSITION, instructed by Miss Ann Horstmann, aids girls in development of writing styles and techniques.

## English

## Speech

As citizens in a country where voice and diction are of increasing importance, Manorettes are trained in tone, color, inflection and modulation of speech.

## Philosophy

MR. JOHN KEARNEY  
Philosophical Anthropology and Ethical  
Theories

Although there are hundreds — perhaps thousands — of scientific studies concerned with every detail of man's life, one question commonly overlooked by researchers is: What is man? At Manor, this question is pursued through courses including PHILOSOPHICAL ANTHROPOLOGY, PROBLEMS IN METAPHYSICS AND EPISTEMOLOGY, and ETHICAL THEORIES. Topics and discussions range from the Greek and Medieval conception of the soul, the mind-body relationship, to the nature of ethics and the norm of morality.

MR. MARTIN B. SPEAR  
Problems in Metaphysics and Epistemology

## Psychology

MR. JOHN DOUGHERTY  
General Psychology

Since the important roles of TODAY will soon be filled by our generation; the mental, moral, psychological, and spiritual education becomes a primary aim in the creation of the Laws of Human Learning in EDUCATIONAL PSYCHOLOGY.

The creation of the well-rounded individuals who will lead the nations of the world are now laying the cornerstone by the facts and the principles of normal, conscious processes in GENERAL PSYCHOLOGY.

MR. BERGEN WOODS

# Natural Science

MOTHER M. BOHDONNA, OSBM  
Chemistry, Zoology  
Botany, Calculus

Men and women live in a society consisting not merely of so many forms, but rather of a group of persons focused on the truths concerning the physical and chemical make-up of God's universe.

Manorettes are ushered into the world of molecular activity by a course in CHEMISTRY, ZOOLOGY, and BOTANY, which escort the girls through the current investigations of the cell structures and evolution.

Dealing specifically with the most wondrous of all structures — the human body — ANATOMY, PHYSIOLOGY, and MEDICAL TECHNIQUES guide the students to new discoveries.

## Social Studies

An important vehicle for a better understanding of the social, economic and political changes that occur in our world, Manor's Social Studies Curriculum offers four major courses in this area: HISTORY OF WESTERN CIVILIZATION and HISTORY OF THE UNITED STATES AND PENNSYLVANIA, both taught by Sister M. Cecilia; and PRINCIPLES OF ECONOMICS and INTRODUCTORY SOCIOLOGY, taught by Mr. Robert J. Piccone, whose picture was not available.

## Education

Designed so that the student can easily transfer to find further training in the field of education, Manor offers two courses in this area: ORIENTATION IN EDUCATION, which gives a preliminary experience for students who plan to enter the field of education; and CLASSROOM MANAGEMENT, which has the emphasis on the importance of self discipline, checking throughout to recognize in the fulfillment of any requirement, some contribution to the "forming of the perfect Christian."

## Languages

MOTHER SALOME, OSBM

MR. VINCENT SERFILIPPO

## Mathematics

REV. THOMAS P. HORNER  
Modern Mathematics

In the communication with the world of numbers, MODERN MATHEMATICS arouses the powers of the mind. The student obtains a wider understanding of the principles of quantitative operations. It seizes the logic and computes the process of figures through the complex laws of theory and the simple reasoning of the mind.

BUSINESS MATHEMATICS, taught by Mr. Kiczula, aids the student in basic math problems and theories.

MR. MICHAEL KICZULA

## Music

SISTER GERMAINE, OSBM  
Music

Through hundreds of years, music has been a source of inspiration to all who have opened their hearts to its magical rhythm. At Manor, the enjoyment and recognition of various types of music is stressed through intelligent listening. Man's joys and sorrows are easily issued from the bells of the brass and the bridges of the strings.

As an invisible bond of friendship and esteem between student and creativity, the ART course provides a source of inspiration to the problems of the world. By virtue of good will to all, Manorettes awakened to the beauty only taught through art instruction.

## Art

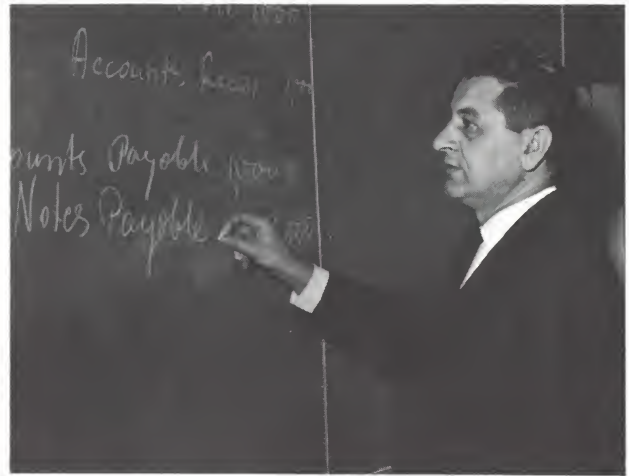

MRS. JILL SMITH

## Accounting

MR. MICHAEL KICZULA

ACCOUNTING prepares a student to interpret, classify, and record transactions that are vital in the performance of a business. For this reason, it is an extremely important course in the making of a well-rounded secretary.

## Business Law

MR. SIDNEY KERSHBAUM

CAVEAT EMPTOR, FUNGIBLE GOODS, PRIMA FACIE, CHOSE IN ACTION — sound confusing? BUSINESS LAW, taught by Mr. Kershbaum, would clear up any second thoughts that a student may have. Included in the course are many of the fundamentals of law; namely, contracts, partnerships, agencies, corporations, sales, property . . .

# Secretarial Science

MISS CHARLOTTE SELENSKI  
Stenography I and II  
Typing I and II, Office Practice

Increasingly important today is the role of a secretary. Well-trained and qualified secretaries are needed in the executive, legal, and medical fields. In preparing a student to become an assistant to her employer, typing, stenography, and office practice are offered to make her more proficient in her curriculum choice.

The Executive Secretary prepares herself for a position as a private, institutional, or business secretary.

The Legal Secretary tries to attain accuracy in typing documents and papers to work in courts, law offices, or legal departments of large companies.

On the other hand, the Medical Secretary learns the terms and techniques necessary in aiding her to accompany a physician in his office as well as in a hospital.

## Physical Education

MRS. ANN KICZULA

Not only is there a need for development of the mind, but there is also need for the physical development of the body in gymnastics and activities including tennis, basketball, volleyball, and bowling.
